Ortronics

LCS3 24-Port Standard Density Flat Patch Panel with 6-port Cassettes (unloaded), 1U

Part No. 033683

The LCS3 patch panel has been designed and produced to optimize space, with up to 48 ports per unit and to make maintenance and future upgrades easier. It features a quick eject system for loading and unloading a cassette from the front of the rack, and an innovative cable guiding system for tidy and easy cable management. Accepts HDJ (UTP), HDJS (FTP), HDFM, and HDJ AV connectors.

NOTE: All panels and cassettes are sold unloaded, HDJ connectors sold separately

Features & Benefits

Fast Push-Button Ejection: Cassettes pop out with a single push of a finger

Front Loading Access: Cassettes eject from the front of the rack for quick access to remove jacks and access cables.

Cable Management: Keep cables organized with the cable fingers

Label Fields: To easily indicate category and media type
