

Ortronics

Infinium Access, 4 Duplex MDC to acclAIM, OM5 Multimode, Conversion Adapter - 3 Pack, Lime

Part No. 205ANM08T-Q

- Infinium Access Quad MDC to acclAIM Conversion Adapter 3 Pack is compatible with any ACCESS-01U enclosure, to populate on demand, replace, or adapt from acclAIM to acclAIM adapters as the need arises.

Features & Benefits

3 Pack, Quad MDC to acclAIM conversion adapters are designed for the Infinium acclAIM fiber system platform, and are compatible with any ACCESS-01U enclosure. These conversion adapters enable the direct mating breakout of 4 duplex MDC connectors from the acclAIM octal fiber connector for simplified connectivity in Meet Me Rooms, IDFs, Carrier rooms, Demarcations, and more. Infinium acclAIM has reimagined pre-terminated and cassette fiber architecture, updating and enhancing the breakout and consolidation technology utilizing direct mating connections, where as cassettes utilize a two mating system with hydra cables housed inside the cassette to breakout the fiber. Direct mating connections, eliminate extra components and complexity. Infinium acclAIM delivers the lowest insertion loss available on the market, the most optical headroom, improved density, flexibility and system lifecycle. The acclAIM™ Alignment Independent Multifiber (AIM) fiber interconnect system is designed to mate multiples of 8-fiber trunk cable connectors directly ferule-to-ferule to other acclAIM connectors or arrays of Very Small Form Factor (VSFF) duplex fiber patch cord connectors (MDC).

Specifications

General Info

Product Line	Ortronics	Color	Lime Green
UPC Number	662875107491	Country Of Origin	Mexico

Dimensions

Product Width US	0.98 in	Product Weight US	0.055 lb
Product Depth US	1.05 in	Product Height US	0.51 in

Technical Information

Fiber Optic Cable Type	OM5	Compatibility	acclAIM
Number of Ports	3	Number of Fibers	3x 8 Fibers
Fiber Type	Multimode	Fiber Size	50/125
