Nuvo
Discontinued - Gateway
Part No. NVGW100NA

The core of the wireless, room-to-room network of Nuvo's wireless players, the Gateway connects to a home router and uses the latest Wi-Fi protocol to reliably send music, from your home network or Internet Radio, to multiple players throughout your system.

Outside North America? Use -EU, -UK or -AU when ordering.

Features & Benefits

Concurrent use of both 2.4 GHz and 5.6 GHz frequency bands allows the system to avoid interference. That means your music never stops or hiccups.

The Gateway allows all of your players to talk to each other, share audio content, initiate commands, and even play the same content throughout every zone, all in perfect syncronization

Wireless "N" technology offers the broadest range signal capacity to send music throughout your entire home, including outside areas

Just connect to your home router and the system automatically streams audio from the internet to your players without any fuss or hassle

Using the state of the art wireless protocol, 802.11n, the Nuvo system can deliver faster more robust signal transmission. Tha means your music is constantly streaming

Wireless: 2 TX x 2 RX MIMO, IEEE 802.11a/b/g/n;Ethernet RJ45 10/100/1000

Specifications

General Info

Product Line	Nuvo	UPC Number	701963853084
Country Of Origin	China	Application Sector	Residential
Standard	FCC, IC, CE-EMC, C-Tick, cULus, GS Mark, CE-LVD, RoHS		

Technical Information

Connector	RJ45	Power Supply	12
Security	WPA2/256-bit encryption	Network	Wireless, LAN - Ethernet

Number of Fibers	Wireless: 2 TX x 2 RX MIMO, Ethernet RJ45 10/100/1000, IEEE 802.11a/b/g/n	Environmental Conditions	10 to 90% (relative humidity, non-condensing)
