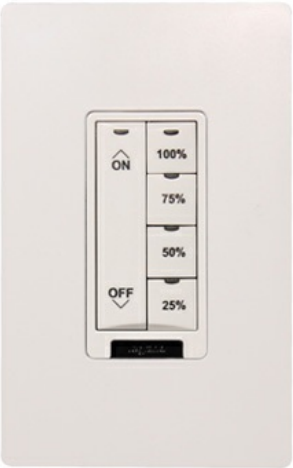
Wattstopper

DLM Dimming Wall Switch, Pre-Eng 1-Button, ON/OFF w/Arrows, Red

Part No. LMDM-101-R-ENG1



The LMDM-101 Digital Dimming Wall Switch is a low voltage device for dimming control of one or more lighting loads. It is part of a Digital Lighting Management (DLM) system and can dim load(s) connected to DLM dimming room controllers and switch load(s) connected to DLM on/off room controllers.

Features & Benefits

1-Button Dimming Wall Switch

It is part of a Digital Lighting Management (DLM) system and can dim load(s) connected to DLM dimming room controllers and switch load(s) connected to DLM on/off room controllers

Plugs to other components using Cat 5e cable and RJ45 connectors eliminating wiring errors

Active Dim feature enables temporary adjustment of any selected load

Plug n' Go automatic configuration and Push n' Learn for personalization

The LMDM-101 Digital Dimming Wall Switch is a low voltage device for dimming control of one or more lighting loads

Low voltage switch for control of dimmable loads

LED bar graph indicates relative light level of controlled load

IR transceiver for wireless configuration and remote control

Specifications

General Info

Product Line	Wattstopper	Color	Red
UPC Number	754182945610	Country Of Origin	China
Features	Pre-Engraved	Number of Switches	1
Application Sector	Commercial	Standard	UL
Type	Dimmer		

Dimensions

Product Width US	1.8 in	Product Weight US	0.2 lb
Product Volume US	20.1 cu in	Product Depth US	1.6 in
Product Height US	4.1 in		

Technical Information

Number of Buttons	1	Amperage	5 mA
Indoor/Outdoor	Indoor
