Ortronics

Rear load high density jack panel kit for 72 Clarity 6 or 5E panel jacks

Part No. PHDPJU72

Legrand® rear-loading individual jack panels utilize reduced-size Clarity® 6 and Clarity 5E panel jacks that can be terminated and snap-in from the back of the patch panel. A variety of panel configurations allow a wide choice of field configurable, easy to install horizontal cross connects. Panels are supplied without jacks. Jacks can be ordered individually or in full carton quantities of 24.

Features & Benefits

Jacks rear load into panels: All terminations done from rear of panel.

New positive jack latching design: Secure mounting of jacks into panel.

High density solution: Maximizes rack space.

Panel jacks support snap-in icons: Easy designation of ports.

Universal wiring labels on panel jacks: Supports both T568B and T568A wiring schemes.

Includes rear cable management: Maintains good identification and management practices.

Specifications
