THE CONVENIENCE
OF BLUETOOTH

designed to be better.™

Legrand continues to advance the capabilities of home entertainment, pushing sound quality and media connectivity all the way to 11.

Our new On-Q™ Bluetooth 4.0 Receiver is a home audio must-have that easily links music libraries or services from any Bluetooth-ready smartphone, tablet or digital music player to your home stereo or On-Q lyriQ™ audio system.

Wirelessly control the CD quality sound streaming directly from your smart device from anywhere around your home, deck or pool. Having company over? Let your friends wirelessly share what they are listening to as well and make it a party!

Is your battery running low? Plug your phone into the built-in USB charging port and fill-r-up. Want to share the latest YouTube sensation with your friends but your phone's audio just isn't cutting it? Tired of tethering your smart device cables to broadcast what you love? Wirelessly stream it to your stereo or On-Q lyriQ audio system with the Bluetooth 4.0 Receiver.

The On-Q Bluetooth 4.0 Receiver is the unifier between you, your friends, and your audio system.

- Easily connect smart phones, tablets or any Bluetooth-capable digital audio device to your home stereo or On-Q lyriQ system
- Allow wireless transmission of high quality audio from your smart device to your audio system
- Break the cable tethers – have the freedom to make your music selections from anywhere
- Charging port conveniently keeps your smart device at peak battery life (1 Amp)
- Conveniently plugs into a standard US AC outlet for power
- Audio connection cables included
- Class 2 Bluetooth (MAX 10M, 30 foot range)
