

6AT MULTI-SERVICE CONTROLLED RECEPTACLE EVOLUTION™ RECESSED POKE-THRU FULL ASSEMBLY, FLUSH STYLE COVER

6AT2PCR | [Wiremold](#)

FEATURES & BENEFITS

Designed for retrofit and new construction, the Controlled Receptacle Evolution Series 6" Recessed Poke-Thru Devices provide convenient access to power, communications and audio/video services recessed below floor level - providing maximum device protection where plugload control is required. With 3 gangs of capacity, you can configure services for the needs of your space. The low-profile metal covers are available in brushed aluminum, satin brass, satin nickel and multiple powder-coated finishes designed to match any space. Evolution Series 6" Poke-Thru Devices are the perfect fit for kiosks, meeting rooms, training rooms, classrooms, healthcare facilities or commercial buildings with open-space architecture. For carpet, tile, wood and laminate concrete floor coverings.

- **Recessed devices:** All power, communications and A/V devices are recessed below floor level, providing maximum protection and device longevity.
- **Multiple preassembled options:** Available in unwired, prewired, and prewired A/V options to save you time on the jobsite
- **Controlled receptacles installed:** The only option on the market with two marked receptacles in a 6" poke-thru that also meets Title 24 and ASHRAE Plug Load Control standards helping you meet code, and saving time at installation.
- **"Step-on-it" installation:** Quick and easy installation without the need for additional fasteners or a second installer.
- **Unique cover design:** The cover opens a full 180 degrees with two unique spring-loaded slide egress doors to keep wires, connections and people safe.
- **Multiple finishes:** Evolution Series Poke-Thru Devices are available in multiple finishes: (BK) black, (GY) gray, (NK) nickel, (BS) brass, (BZ) bronze, (AA) brushed aluminum, (SB) satin brass and (SN) satin nickel to seamlessly match your environment.
- **Ideal for high foot traffic environments:** Satin brass, satin nickel and brushed aluminum finishes offer a more durable, high-end look with a tougher clear powder coat.
- **Flush style cover assemblies:** A flush style cover for tile applications allows the Evolution Series Poke-Thru Devices to be adjusted to the same level as the top surface of the floor covering. The flush cover is designed to be used for tile or wood floors and in higher traffic applications, where a low profile is a must.
- **Open system for expanded compatibility:** Accepts industry standard power, communications and A/V devices from most manufacturers including Legrand AVIP, Extron® and more.
- **2 hour fire rating:** Evolution Series Poke-Thru Devices use an intumescent material that maintains the fire rating of any floor for up to 2 hours.
- **Meets ADA accessibility guidelines:** Wide trim flange is designed to meet the ADA Accessibility Guidelines as it pertains to ADA Standard 4.5, which addresses changes in floor and ground surface levels. The poke-thru trim flanges are beveled so the slope is no greater than 1:2 ratio.
- **UL Listed and UL Fire Classified to U.S. and Canadian safety standards:** UL Fire rated for up to 2-hour rated floors maintains the fire classification of the floor.

SPECIFICATIONS
