

Wiremold 10AT Prewired Evolution™ Series Poke Thru Device, Surface Style Cover Part No. 10ATCPSN

Proof that bigger and better go hand in hand: Evolution Series 10" Poke-Thru Devices offer more capacity, flexibility and versatility than any other poke-thru device on the market. In offices, hospitals, government buildings, schools and universities – in all of the spaces where we live and work – clients are demanding more: more communications, more A/V and more power. Featuring eight-gangs of capacity, redesigned and easier to use covers, recessed connections below floor level, and enough internal wiring capacity to eliminate the need for a junction box – Evolution Series 10" Poke-Thru Devices are ready to meet that increased demand.

Features & Benefits

For use with 10" (254mm) diameter hole

All devices are recessed 4 1/2" (114mm) below the finished floor level

Unit ships complete with an all aluminum cover (assembled) designed to sit on top of Powder coated black finish finished floor surface (carpet, tile, wood, concrete or terrazzo)

Specifications
