

Ensure protection at the critical fusion junction between two fusion spliced optical fibers. This heat-shrink sleeve is 1.57 inches in length and provides a 5.0 mm diameter opening to accommodate 5.0 mm fiber cables. It has been designed to make VFL verification easy to accomplish due to the transparent construction and a ceramic strength member is present to ensure additional robustness at the sight of the splice connection. These splice on connector heat shrink sleeves are packaged in quantities of 50, and are recommended for use with FST3-A144 splice trays.

Features & Benefits

- | | |
|--|---|
| Protects Fusion Splice: Ensure the critical splice point remains clean and secure. | Stainless Steel Wire: Prevents corrosion and ensures rigidity |
| 5.0 mm: Accommodates 5 mm cables | Visual Fault Locator: Clear design enables quick VFL identification |
