

Legrand keyed LC fiber solutions provide a simple and convenient way to physically prevent the user from making an unauthorized connection by blocking access to specific optical ports, whether they are at a workstation outlet or in a telecommunications room or data center. This is particularly important for government, finance, military and other facilities where multiple networks having different security level access requirements may be co-located.

Features & Benefits

| | |
|---|---|
| 12 color/key configurations available | 50/125 microns and 9/125 microns laser-optimized fiber types available |
| LC Keyed cadapters prevent improper connection of separate networks with common access points | Each LC secure adapter will mate only with same-color LC secure connector |
| High quality 1.25 mm zirconia ferrules used | Internal keying feature prevents tampering |
| High quality 1.25 mm zirconia ferrules used | 1.6 in boot protects the splice for easy cable management |
| The solution to managing multiple networks with reduced risks | |

Specifications

General Info

| | | | |
|-------------------|---------------|------------|--------------|
| Product Line | Ortronics | UPC Number | 662875033950 |
| Country Of Origin | United States | Type | Connector |

Dimensions

| | | | |
|-------------------|----------|------------------|---------|
| Product Width US | 0.236 in | Product Depth US | 3.65 in |
| Product Height US | 0.409 in | | |

Technical Information

| | | | |
|--------------|-------------------------------------|--------------------|--------------|
| Service Life | 500 matings, < 0.2dB typical change | Temperature Rating | -40° - 75° C |
| Fiber Size | 9/125 | | |
