

Wiremold 8AT Prewired Evolution[™] Poke Thru Device, Flush Style Cover, Black Part No. 8AT2PBK

Designed for retrofit and new construction, Evolution Series 8'' Recessed Poke-Thru devices provide convenient access to power, communications, and audio/video services recessed below floor level - providing maximum device protection. With 5 Gangs of capacity, you will be able to configure services for the needs of your space. The low-profile metal covers are available in brushed aluminum, satin brass, satin nickel, and multiple powder-coated finishes designed to match any space. Evolution Series 8'' Poke-Thru devices are the perfect fit for kiosks, meeting rooms, training rooms, classrooms, healthcare facilities or commercial buildings with open-space architecture. For carpet, tile, wood and laminate concrete floor coverings.

Features & Benefits

| Save on labor with a completely assembled, prewired poke-thru with every power receptacle already installed. | All power, communications and A/V devices are recessed below floor level, providing maximum protection and device longevity. |
|--|---|
| Quick and easy installation without the need for additional fasteners or a second installer. | The cover opens a full 180 degrees with two unique spring-loaded slide egress doors to keep wires, connections and people safe. |
| A surface style cover is for mounting on top of the finished floor surface. The surface cover is designed to be used for carpet, tile, wood, polished concrete, o terrazzo. | Includes 3-gang opening. Designed to fit A/V devices, including wall plate style transmitters, like the Crestron DM/TX series, without any additional parts. Plug load control up to 30 feet. |
| Includes 3-gang opening. Designed to fit A/V devices, including wall plate style transmitters, like the Crestron DM/TX series, without any additional parts. Plug load control up to 30 feet. | Tested with Pass & Seymour ${\ensuremath{\mathbb R}}$ Wireless RF receptacles to control plug |
| Evolution Series Poke-Thru Devices use an intumescent material that maintains the fire rating of any floor for up to 2 hours. | Wide trim flange is designed to meet the ADA Accessibility Guidelines as it pertains to ADA Standard 4.5 which addresses changes in floor and ground surface levels. The poke-thru trim flanges are beveled so the slope is no greater than 1:2 ratio. |
| UL Listed and UL fire classified to U.S. and Canadian safety standards. UL Fire rated for up to 2-hour rated floors maintains the fire classification of the floor. | Evolution Series Poke-Thru Devices use an intumescent material that maintains the fire rating of any floor for up to 2 hours. |
