

On-Q  
Discontinued - Plastic Enclosure Cable Channels 2-Pack  
Part No. AC1052CC2

The Cable Management Channels are designed to neatly manage cabling within the On-Q plastic enclosures. The cable management channels retain cabling to the slides of the enclosure without the need for Velcro or cable ties.

## Features & Benefits

Supports punchdown termination of up to 8 Cat5e data lines for easy interface with the home network

Integrated mounting hole pattern supports ratchet and keyhole posts (AC1051-RCKH-4) for small device mounting

Sold as a pack of 2 cable management channels and includes 2 self-taping screws to secure to Plastic Enclosure. Not compatible with On-Q Metal Enclosures

The cable management channels support up to 12 RG6 coax or category cables

When combined with the AC1050 bracket, the channels can be configured to provide an elevated 2nd layer mounting platform. Ideal to maximize space and organization inside the enclosure

## Specifications
