

This adorne Whisper Dimmer features an innovative design that lets you use a whisper-soft motion to dim and brighten lights, or simply toggle them on and off. Use this dimmer switch on its own to control a light or fixture from a single location, or pair with a remote dimmer switch to control a single light source from two locations. This version of the Whisper Dimmer Switch is meant for use with incandescent or halogen single fixtures or with small lighting groups whose total wattage does not exceed 700W. Made exclusively for use with screwless Wall Plates from the adorne® Collection, sold separately.

Features & Benefits

Helps fight the growth of stain and odor-causing bacteria through the invisible and continuous product protection of Microban® antimicrobial technology

Installs in 15 minutes or less, fitting into an existing electrical box. No new wiring required for typical installation.

Usable in both single-pole and 3-way applications.

For complete installation, device must be paired with an adorne® screwless Wall Plate (not included). Available in a range of contemporary colors and stunning finishes.

For use with dimmable incandescent/halogen bulbs or fixtures that do not exceed 700W. Lets you control lights with a fluid, whisper-soft toggle motion (on/off) or smooth slide (dim/brighten).

More color options available to fit any style, including finishes to match current hardware and lighting trends.

Specifications
