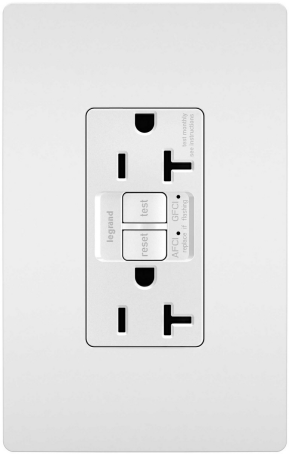
radiant Collection

Discontinued - radiant® 20A Tamper-Resistant Dual-Function AFCI/GFCI Outlet

Part No. AFGF202TRW



Protecting against both electrical fires caused by arc faults and injury due to electrical shock, this outlet meets National Electrical Code for use in kitchens and laundry areas. Unlike AFCI/GFCI breaker alternatives, this dual-function device makes it easy to recognize and fix trips right where they happen. Maximize safety, in style, with AFCI/GFCI protection featuring the sleek, clean lines of radiant. 20A outlets are ideal for use with larger appliances, as well as to meet regional requirements (Chicago, Canada). GFCI protection is required by code in bathrooms, kitchens, garages, outdoor areas, and for any other outlets found within six feet of a sing or water source. Dual-Function outlets meet code for GFCI requirements and offer additional protection against arc faults, also required in certain areas for home sale inspection. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

Features & Benefits

Delivers reliable arc-fault and ground fault protection, reducing risk of both electrical fires and injury due to shock.

Unlike breaker alternatives, AFCI/GFCI outlets make it easier to fix trips and confirm protection with two indicator lights and convenient reset/test buttons right on the outlet.

Conducts an industry-leading automatic self-test every 3 seconds. If the device ever fails, the indicator light flashes to signal it should be replaced.

Equipped with proven SafeLock protection feature: if critical components are damaged and protection is lost, power to the receptacle is disconnected.

Extends GFCI protection to "downstream" outlets when used with feed-thru wiring configuration. Note: Will cut power to face and downstream outlets if wired incorrectly.

Protects children with a patented tamper-resistant shutter system that prevents improper insertion of foreign objects, complete with "invisi-shutters" for an invisible effect.

More color options available to fit any style, including finishes to match current hardware and lighting trends.

Complete the look with a sleek, screwless radiant® Wall Plate, and coordinate with other designer switches and outlets available from the radiant® Collection.

Specifications

General Info

Product Line	Pass & Seymour	Replaced by Part Number	AFGF203TRW
Color	White	Country Of Origin	China

Technical Information

Amperage	20 A	Mounting Type	Box
Voltage	125.0 V
