

## Legrand

Power Pack, 120-277V, 50/60Hz, 24VDC, 225mA, w/Auto-On/Manual-On  
Part No. BZ-150

The BZ-150 Universal Voltage Power Pack can provide 24 VDC operating voltage to Wattstopper's lowvoltage occupancy sensors. In addition, the BZ-150 enables manual-on, hold-on, hold-off and load shed applications when used with lighting control panels or building management systems. This device is constructed with environmentally friendly materials and is RoHS-compliant.

### Features & Benefits

Self-contained power supply relay system

LED indicates status of relay or if there is a low-voltage overcurrent

Integrates with low-voltage momentary switch to control any 24VDC occupancy sensor

Provides auto-on or manual-on field-selectable operating mode

Efficient switching power supply providing optimized current output based on number of sensors

Hold-on and hold-off inputs integrate with BMS, lighting control panels & other building systems

The product meets the materials restrictions of RoHS

### Specifications

#### General Info

UPC Number 754182922918

Country Of Origin China

Product Line Wattstopper
