

The Vantage Communicating Thermostat is designed for all applications, including single-stage, heat pump, and multi-stage systems, as well as control of humidifier and dehumidifier systems. It features an on-board relative humidity sensor that can be configured to control both humidifier and dehumidifier. The thermostat communicates with InFusion controllers, Vantage touchscreens, and mobile apps for remote operation and feedback. It also supports direct connection of outdoor or indoor sensors. The thermostat allows for temporary override of the Vantage System without altering the initial programming, and automatic setpoints are controlled through the Vantage System.

Features & Benefits

One thermostat for all applications - works with single-stage, heat pump, multi-stage and control of humidifier and dehumidifier systems.	On-board relative humidity sensor configurable to control humidifier and dehumidifier
Communicates with InFusion controller, Vantage touchscreens, and mobile apps for remote operation and feedback	Direct connection of outdoor or indoor sensor
Allows for temporary override of Vantage System without altering initial programming	Automatic set points controlled through the Vantage System

Specifications

General Info

Product Line	Vantage	UPC Number	804428066521
Country Of Origin	China	Application Sector	Residential
Type	Accessory		

Dimensions

Product Width US	6.0 in	Product Weight US	1.5 lb
Product Height US	2.0 in	Product Length US	5.0 in

Technical Information

Seismic Tested	No	Sensor Type	Humidity
