

Legrand
PLASTIC 30 IN ENCL NO COVER (5PK)
Part No. ENP30805NA

Constructed with a robust, wireless transparent ABS plastic material, this lightweight, low-profile enclosure is designed to integrate wireless devices into traditional structured wiring installations. The enclosure mounts easily for both surface and recessed applications. The hinged door and trim ring ENP3060-NA (ENP3060-5NA Bulk Pack) purchased separately to complete installation during trim-out phase.

Features & Benefits

Made with ABS plastic, the enclosure is designed to integrate wireless devices without interference.

Installs into a single stud bay and has staggered mounting tabs to allow multiple enclosures to mount in adjacent stud bays.

Top surface includes five 2" knockouts: rubber grommets available for purchase (AC1034).

Compatible for both surface or recessed mounting applications

Universal mounting grid maximizes compatibility with 3rd party products without additional brackets.

Tapered design allows enclosures to stack for efficient transportation and warehousing.

Bottom surface includes two AC receptacle box knockouts and two knockouts allowing vertical stackability.

UL listed.
