DLM Plug Load Controller 20A, 120V, 60Hz, On/Off
Part No. LMPL-101

LMPL-101 Plug Load Controllers include a 20 amp relay for on/ off control of connected outlets, and a high-efficiency switching power supply. They are part of a Wattstopper Digital Lighting Management (DLM) system, and enable energy-efficient control of plug loads.

Features & Benefits

Plenum-rated controller with line voltage relay and switching power supply

Plugs to other components using Cat 5e cables with RJ45 connectors eliminating wiring errors

Accepts occupancy sensor signal for energy saving control of plug loads

Component of Digital Lighting Management integrated control systems

Plug n' Go automatic configuration and Push n' Learn for personalization

Specifications

General Info

UPC Number 754182925360

Country Of Origin China

Product Line Wattstopper

Dimensions

Product Volume US 55.61 cu in

Product Width US 4.0 in

Product Height US 2.71 in

Product Weight US 0.6 lb

Product Depth US 4.53 in

Additional Information

Product Environmental Profile Yes
