

LMPW-100 Series Digital PIR Wall Switch Occupancy Sensors use passive infrared (PIR) technology to detect occupancy for energy-efficient control of lighting and plug loads. They also include one or two switch buttons for manual control of selected loads, and are part of a Wattstopper Digital Lighting Management (DLM) system

## Features & Benefits

<p>2-button Digital PIR Wall Switch Occupancy Sensor</p>	<p>LMPW-100 Series Digital PIR Wall Switch Occupancy Sensors use passive infrared (PIR) technology to detect occupancy for energy-efficient control of lighting and plug loads. They also include one or two switch buttons for manual control of selected loads, and are part of a Wattstopper Digital Lighting Management (DLM) system</p>
<p>Passive infrared sensor with On/Off button(s) to switch selected load(s)</p>	<p>Component of Digital Lighting Management integrated control system</p>
<p>Quick access to Push n' Learn for system personalization</p>	<p>Digital sensor with LCD display and programming pushbuttons</p>
<p>IR transceiver for wireless configuration and remote control</p>	<p>Plug to other components using Cat 5e cables with RJ45 connectors eliminating wiring errors</p>

## Specifications

### General Info

Product Line	Wattstopper	Color	Ivory
UPC Number	754182946761	Country Of Origin	China
Features	Pre-Engraved	Number of Switches	2
Application Sector	Commercial	Standard	UL
Type	Occupancy Sensor		

---

## Technical Information

---

Sensor Type	Occupancy	Number of Buttons	2
Amperage	8 mA	Indoor/Outdoor	Indoor

---
