

Vantage Low Voltage Relay Station (DIN) Part No. LVRS8-DIN

The Vantage DIN Low Voltage Relay Station is a powerful control point for systems or devices that operate through low voltage relay control. The DIN LVRS includes eight SPDT relays to control devices such as draperies, pumps, garage doors, lifts, screens, pool covers, sprinklers, baths, security systems and more. Each relay corresponds to an individual button on the front of the unit, that allows the connected device to be manually switched. The individual relays "latch" to retain the last state in the event of a power interrupt.

Features & Benefits

Provides a single integration point for up to eight relay channels	Allows effortless control of devices such as draperies, pumps, garage doors, lifts, screens, pool covers, sprinklers, security systems, and much more
Clips easily on standard 35mm DIN rails	Compatible with programming through Vantage's InFusion Design Center or QLink software
Communicates with the controller via WireLink	Features eight buttons to manually control each relay

Specifications

General Info

Product Line	Vantage	UPC Number	804428120742
Country Of Origin	China	Application Sector	Residential
Type	Accessory		

Dimensions

Product Width US	5.0 in	Product Weight US	0.7 lb
Product Height US	3.0 in	Product Length US	7.0 in

Technical Information

Seismic Tested	No
