

Ortronics
M4 2x32 Pol Splitter - SC/APC Connectors - 2M Pigtails
Part No. M4S2132SA092M

The M4 2x32 POL Splitter is a point to multipoint cassette designed to split 2 SC connector to 32 SC connectors over a Passive Optical LAN (POL) that provides the capability to securely deliver voice, data, and IP/broadband video. A POL is an alternative to a traditional Ethernet LAN and is widely accepted as an ideal replacement of old copper networks. A POL allows you to optimize your resources with a simple, space saving installation and provides benefits such as cost reductions, greater efficiencies, scalability and a clear upgrade path. -

Features & Benefits

Energy Efficiency: A POL uses unpowered optical components

Cost Reduction: A POL requires less power, cooling, and maintenance

Versatile Installation: Splitter cassette loads into front of enclosure tray drawer face or mounting bracket

Future Proof Infrastructure: Scalable and has a clear upgrade path

Specifications

General Info

| | | | |
|-------------------|-------------|--------------------|--------------|
| Product Line | Ortronics | UPC Number | 662875924692 |
| Country Of Origin | China | Application Sector | Commercial |
| Standard | TIA-568-C.3 | Type | Cassette |

Dimensions

| | | | |
|------------------|---------|-------------------|-------|
| Product Width US | 4.24 in | Product Length US | 2.0 m |
|------------------|---------|-------------------|-------|

Additional Information

| | |
|-----------------|-----|
| RoHS Conformant | Yes |
