

The Mighty Mo 20 Heavy Duty Security Door offers a lockable, dual hinged door, designed to secure open racks in data rooms and colocation facilities. The Mighty Mo 20 open frame rack easily adapts with upper and lower door supports to provide for a conversion of a single rack or an entire row of racks. The doors assist in making the Mighty Mo 20 even MORE data center ready by enclosing the electronics as well as protecting and securing data connections. -

Features & Benefits

- Smooth pin hinge design
- Dual locking handles
- Extended top waterfall for increased cable capacity
- Limit access to equipment in open racks
- Field retrofit to any existing Mighty Mo 20 frame
- Creates a clean look by concealing electronics and cabling
- 180° hinge allows for full access without removing the door
- Perforated panel for front to rear airflow
- Easy to install on existing frames
- Create secure vertical manager interface when the door is locked
- Front and rear options for complete security
- Rugged, fully welded steel door

Specifications
