

MM20 Hex Pattern Vertical Cable Management Panels provide an efficient way to manage rack cabling and can be mounted to MM20 in DAB and FXD 4-post racks. The unique honeycomb design allows for proper cable routing and cable bend radius control. The panels hex pattern will accept MM20 universal cable troughs, cable disks and hexguard cable protectors.

Features & Benefits

Vertical Cable Management Panel: Simple to install cable management panel that accepts MM20 universal cable troughs, cable disks, and hexguard cable protectors to manage cables in any application.

Engineered Third Space: This channel creates a separate area behind the front manager for fiber backbone, slack storage, and front-to-rear cable routing from the vertical manager to the rear of the rack.

Hex Pattern: The hex pattern enables cables to transition from inside channels to outside and supports the Universal Cable Trough. It offers three-point stabilization and protection for horizontal distribution cables and fiber trunks.

Specifications

General Info

Product Line	Ortronics	Color	Black
Finish	Powder Coat	UPC Number	662875037293
Country Of Origin	United States	Included	Mounting Hardware
Application Sector	Commercial	Warranty Type	5-Year
Type	Cable Manager		

Dimensions

Product Width US	15.0 in	Product Depth US	1.98 in
Product Height US	86.22 in		

Technical Information

Compatibility	Mighty Mo	Rack Units	51
Seismic Tested	No	Mounting	Vertical
