

Universal cable troughs snap into the hex pattern on the Mighty Mo 20 channel racks and are used to create a front to rear or vertical trough on the inside or outside of the channel. They can be mounted in a row to create a continuous trough or rotated at 30 degree increments to support cables through directional changes. Up to 3 HiLOC harnesses can be toollessly mounted into each trough. The 2" x 2" size is equipped with slots to allow it to be joined to Mighty Mo Fiber Raceway.

Features & Benefits

- Snaps into the hex pattern on MM20 channel racks:** Creates a front to rear pathway for cables between racks.

HiLOC ready: Up to 3 HiLOC harness shells can be snapped into the cable trough providing Zero ""U"" connectivity for switches and servers.
- Hex design:** Allows trough to be rotated in 30 degree increments for pathway transition from horizontal to vertical.

Specifications

| General Info | | | |
|------------------------|--------------|-------------------|---------|
| Product Line | Ortronics | Color | White |
| UPC Number | 662875208846 | Country Of Origin | Mexico |
| Application Sector | Commercial | Type | Rack |
| Dimensions | | | |
| Product Width US | 3.0 in | Product Depth US | 5.25 in |
| Product Height US | 0.5 in | | |
