

On-Q
Discontinued - airQast Wi-Fi Speaker System
Part No. MS6521V1

The airQast Wi-Fi Speaker System is unlike any music system that's come before. With the press of a button, users can access, control and play all their favorite music right from their smartphone or tablet through a pair of stunning pro-grade speakers.

Features & Benefits

Speakers provide crisp, clear, full sound

Two users can share music stored on their device or the home network to build collaborative playlists, add songs, skip tracks, and control volume, with each user seeing what the other is doing

Enjoy streaming music services from Pandora, YouTube, SiriusXM and Last.FM

Add the headphone or line-level audio into the back of the airQast speaker system and easily switch between your airQast source and any input with the included IR remote

Attach a powered subwoofer to create a true 2.1 stereo system

Intuitive free app puts lets you access all your digital music with the flick of a finger

Produces 50 watts of crystal-clear stereo sound for a powerful, immersive audio experience

Free feature and services updates download automatically through airQast server
