

The Netatmo Indoor Camera helps protect your home and offers you peace of mind. When it detects an intruder, it alerts you immediately via your smartphone. Thanks to the camera's facial recognition technology and the "pet detection" feature, it can distinguish between strangers, family members, and harmless movement. Customize the notifications you want to receive so your never disturbed again by a false alarm! The Indoor Camera protects your home and your privacy, using the built-in facial recognition to disable notifications and video recordings of you and your family. There are no subscription fees; all features, functions and updates are included with the camera. And your data is 100% secured, thanks to the local storage on an encrypted and included MicroSD card. The Smart Indoor Camera installs in minutes, and is compatible with Amazon Alexa, Google Assistant and Apple HomeKit, for easy voice command and integration with other smart devices.

Features & Benefits
