

Nuvo
Discontinued - 100W Digital Wall Mount Subwoofer Amplifier
Part No. NVSUBAMP100NA

Delivering a stand-out bass response, the NV-SUBAMP100-xx subwoofer amplifier offers maximum versatility with a small size and wall-mount capability. The amplifier and optional NV-SUBIC8 passive in-ceiling subwoofer are designed to integrate with almost any audio system. The NV-SUBAMP100-xx features signal-sensing power activation to automatically turn on when it detects a signal from the receiver. It will return to standby automatically after approximately 15 minutes of no signal.

Unfiltered LFE / RCA stereo as well as speaker-level inputs let you easily connect the amplifier to most modern receivers. And a convenient two conductor connector can power an optional wireless receiver. The variable crossover and phase controls allow you to match the Subwoofer output with the main speakers for premium performance and sound. A three-position EQ switch allows the amplifier output to be tailored to any Nuvo in-ceiling or in-wall passive subwoofers. One or two NV-SUBIC8 subwoofers may be used with one NV-SUBAMP100-xx.

Features & Benefits

EQ settings for use with any Nuvo passive in-ceiling or in-wall subwoofers	Installation-friendly wall-mountable design
Powerful compact all digital subwoofer amplifier ideal for small to medium sized audio installations	Signal-sensing power ON/OFF
Unfiltered LFE (low frequency effects), RCA and speaker level inputs	Variable crossover and phase adjustment
