

The Mighty Mo 20, Air Dam Kit for VMD Vertical Managers, seamlessly integrates MM20 open rack systems with hot and cold aisle containment solutions, sealing off the back of vertical managers to create an air dam while minimizing energy consumption, optimizing thermal efficiency and safeguarding front-to-rear breathing equipment. Each air dam is designed to directly integrate with Mighty Mo 20 systems with tool-less one-person installation process reducing labor costs and eliminating the need for specialized components or additional brackets.

## Features & Benefits

**Tool-Less Install:** Reduce labor costs with tool-less, one-person installation - no additional brackets or special components needed.

**Passive Airflow Containment:** Divides the rear of vertical managers to separate and contain hot and cold aisles, creating an air dam that improves thermal efficiency, reduces energy consumption, and protects front-to-rear airflow equipment.

**MM20 Complete Cable Management System**  
**Compliant:** Engineered to integrate directly with Mighty Mo 20 Racks and VMD Vertical Managers with no tools, special brackets, or kits.
