

"The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding. Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray."

## Features & Benefits

Designed to fit the exact radius of the fitting

## Specifications

### General Info

Product Line	Cablofil	Finish	Mill Galvanized Steel
UPC Number	800388515949	Country Of Origin	Mexico
Application Sector	Commercial, Industrial	Type	Accessories

### Dimensions

Product Weight US	1.92 lb
-------------------	---------
