

Cablofil
Discontinued - Vertical Fitting Divider
Part No. P086381

"The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding. Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray."

Features & Benefits

Designed to fit the exact radius of the fitting

Specifications

General Info

| | | | |
|--------------|----------|--------|----------------|
| Product Line | Cablofil | Finish | Pre-Galvanized |
