

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding, Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

Features & Benefits

Steel construction

Specifications

General Info

| | | | |
|--------------|--------------|-------------------|---------------|
| Product Line | Cablofil | Finish | Stainless 316 |
| UPC Number | 800388248908 | Country Of Origin | Mexico |

Dimensions

| | | | |
|-------------------|-------------|-------------------|---------|
| Product Width US | 2.05 in | Product Weight US | 0.02 lb |
| Product Volume US | 0.002 cu ft | Product Depth US | 2.01 in |
| Product Height US | 0.8 in | | |
