

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding. Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

Features & Benefits

Attaches to the tray bottom flange.

Supports the cable tray directly from a threaded rod without the need for an additional support member.

For use with all series 1 flange-in ladders and ventilated/trough cable trays.

Threaded rod purchased separately.

Available for series 1 only.

Specifications

General Info

Product Line	Cablofil	Finish	Pre-Galvanized
UPC Number	800388253520	Country Of Origin	Mexico

Dimensions

Product Width US	2.375 in	Product Weight US	0.28 lb
Product Volume US	0.002 cu ft	Product Depth US	1.625 in
Product Height US	0.75 in
