

## Cablofil LD-6A-90VI12-06 AL 6H 90° IVR 12R 06W (TRA)

Part No. P308665

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding, Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

| Features & Benefits  Includes splices and hardware |                 |                    |                        |
|--|-----------------|--------------------|------------------------|
