

Fabricated cable tray fire stop sleeves from Legrand/Cablofil, combined with Firestop products, are an economical alternative to the high cost of fabricating protective fire wall and floor penetration sleeves in the field. This firestop system provides a rigid support for cable tray in a UL classified system approved for fire wall and floor penetrations.

Features & Benefits

Overall length of the sleeve is 20".

Will fit walls up to 8" thick.

The Fire Block is a compressible fire stop brick, well-suited for installations where frequent cable changes may be required.

Blocks are easily cut to fit any space, and can be removed and reinstalled when cable configurations change.

When exposed to fire, the blocks expand to lock the seal in place.

Specifications

General Info

Product Line	Cablofil	Finish	Hot Dipped Galvanized after Fabrication
UPC Number	800388206816	Country Of Origin	Mexico
Application Sector	Commercial, Industrial	Type	Wall Penetration Sleeve

Dimensions

Product Width US	24.0 in	Product Weight US	56.946 lb
Product Volume US	3.333 cu ft	Product Depth US	20.0 in
Product Height US	12.0 in
