

Clamps are used to junction runway sections together in a variety of configurations. Whether sections are extended in-line or junctioned perpendicularly or are transitioned from horizontal to vertical, clamps provide a solid connection to assure the runway layout will provide the necessary support for your cabling.

Features & Benefits

Adjustable Angle Splices junction runway sections from Separate horizontal planes for smooth vertical transitions: Provides a solid connection to assure runway layout will provide the necessary support for your cabling.

Specifications

General Info

Product Line	Ortronics	UPC Number	662875557500
--------------	-----------	------------	--------------

Country Of Origin	United States
-------------------	---------------

Dimensions

Product Width US	7.0 in	Product Depth US	1.25 in
------------------	--------	------------------	---------

Product Height US	2.13 in
-------------------	---------

Additional Information

RoHS Conformant	Yes
-----------------	-----
