Shading Systems
Qadvanced Roller Shades
Part No. Qadvanced

QMotion delivers a more simple and sophisticated automated shade that offers both ease of use and dependability. Choose from shades in a wide range of colors and styles, with a bevy of options. All automated roller shades can be controlled via remote, smart phone or tablet, or with our exclusive manual override feature, which does not strip the motor, unlike traditional roller shades. Battery powered QMotion shades offer the same benefits as low voltage powered, and add the ability to install in difficult situations as well as function in the absence of electrical supply. Because QMotion battery powered shades use an internal battery pack, there are no visible battery packs or wires to hide.

Features & Benefits

- Whisper-quiet motors for silent operation
- Patented manual override feature allows for hand operation without damage to motors
- Patented counterbalance system helps maximize battery life
- Batteries ship inside the tube – no battery wands or external battery packs required – for easier installation
- Integrate with popular automation systems

Specifications

General Info

Product Line	Shading Systems	Application Sector	Residential/Commercial

Dimensions

Maximum Product Height	180 in	Maximum Product Width	156 in

Additional Information

Product Has Potential to Contribute to LEED	Yes

Technical Information

Has Battery	Yes	Battery	D Battery
Voltage	24.0 V
