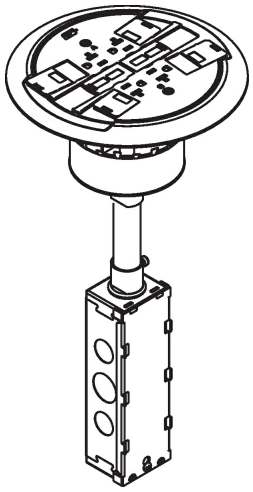
Wiremold
POKE-THRU ASSY LESS JCT BOX BRASS
Part No. RC4ATCBS-LJB



Flush Style Poke-Thru Devices are an excellent solution for bringing power, communication, and A/V services to the workstation in an open space, above-grade floor environment. All Wiremold Flush Style Poke-Thru Devices come with built-in TopGuard™ protection, an industry-leading design that meets and exceeds UL scrub water exclusion requirements for tile and carpet floors. Topguard protection prevents water, dirt, or debris from entering not just the power devices, but also the communication devices. All Wiremold Flush Style Poke-Thru Devices can be installed on tile, carpet, or wood covered floors. Each of these devices provides an excellent solution for both new or retrofit construction, with typical applications that include office buildings, airports, malls, shopping centers, libraries, and schools.

Features & Benefits

Unit includes four prewired 20A receptacles. Each duplex receptacle is wired as separate circuit. The duplex can be wired as a standard receptacle or isolated ground.

Brass flange also available with nonmetallic brass colored slide holder (AB). Aluminum flange also available with nonmetallic aluminum colored slide holder (AA).

NOTE: Assembled with scrub water gasket. For use on tile or carpet floors. RC4 Series Poke-Thru Devices require a 4inch (102mm) diameter hole. Not designed to work with bare concrete or terrazzo. Floor covering thickness 1/8inch minimum.

Finish flange available in gray (GY), black (BK), ivory (VY) or brushed metal finishes in aluminum (AL), and brass (BS). Aluminum and brass flanges shipped with black slide cover.

Includes Wiremold Open System unloaded adapters to accept four discrete keystone connectors from most manufacturers. Unit also includes Ortronics TracJack Mounting adapters and Ortronics Series II Communication Housing. Modular jacks sold separately.

Specifications
