RFB2E-OG Series Two Compartment Recessed On-Grade Floor Box

Part No. RFB2E-OG

Resource RFB® E Series floor boxes provide power, communication and A/V services to any open space or work station. They're versatile, recessed floorboxes that can fit the Evolution Series Poke-Thru covers. With a variety of configurations and cover colors, the RFB Evolution series is perfect for designers and architects that want to keep a consistent aesthetic, on-grade or above-grade, with their floor boxes and poke-thrus. Available in two-, four- and six-gang options.

Features & Benefits

Easy installation in many floor surface types - Bare concrete, carpet, tile and terrazzo floors

Adaptable t -fit on or above ground level floors - On-grade and above-grade versions available for each size

Multiple knock-out sizes - 3/4" to 1 1/4" trade size Kos

Compatible with a 2" trade size conduit hub (ZHUB) - Feed larger cables and still minimize concrete pour depth

Available in multiple sizes and configurations - Choose two, four or six compartments to accommodate power, communication or A/V

A single cover style for all of your activation points - Covers available in five flawless colors to blend in with any space

More flexibility and design options - Accepts Furniture Feed Covers for open office spaces
