Features & Benefits

Simplify control while saving energy, with the radiant® Occupancy Sensor. Automatically turning the light on when someone enters a room, and shutting it off when the room is empty, this sensor includes an adjustable timed delay for shut off, as well as additional settings for more flexible control. Part of the radiant® Collection, it features clean lines and smooth paddle action for a sophisticated touch. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

Turn the light on when you enter, and let it turn itself off automatically after you leave for true convenience.

Features an adjustable time delay, letting you set the automatic shut-off after a specified window of time. Delay settings range from 30 seconds to 20 minutes after the room is vacated.

Installs easily in place of a standard light or fan (single-pole) switch. No neutral wire required.

Locator light illuminates when switch is off, emitting a soft glow to help you find it in the dark.

More color options available to fit any style, including finishes to match current hardware and lighting trends.

Complete the look with a sleek, screwless radiant® Wall Plate, and coordinate with other designer switches and outlets available from the radiant® Collection.

The secret for always turning the lights off? A device that does it for you automatically. Perfect for bathrooms, hallways, closets, and garages.
