

radiant Collection
Discontinued - radiant® Single Pole 3-Way Vacancy Sensor, Tri-Color
Part No. RRW600VTCCCV4

Never worry about leaving the lights on, with the radiant® Vacancy Sensor. It automatically shuts off when a room is empty, and includes an adjustable delay setting of up to 30 minutes to match your needs. Designed for ease and style, it features a built-in locator light, and the sleek, clean lines of radiant® for a sophisticated touch. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

Features & Benefits

Works with various lights/bulbs, including: Incandescent, LED, fluorescent, compact fluorescent (CFL), magnetic low-voltage (MLV) and electronic low-voltage (ELV), 1/6 hp.

Turn the light on when you enter, and let it turn itself off automatically after you leave for true convenience.

Features an adjustable time delay, letting you set the automatic shut-off after a specified window of time. Delay settings range from 30 seconds to 20 minutes after the room is vacated.

Installs easily in place of a standard light or fan (single-pole) switch. No neutral wire required.

Locator light illuminates when switch is off, emitting a soft glow to help you find it in the dark.

More color options available to fit any style, including finishes to match current hardware and lighting trends.

Complete the look with a sleek, screwless radiant® Wall Plate, and coordinate with other designer switches and outlets available from the radiant® Collection.

The secret for always turning the lights off? A device that does it for you automatically. Perfect for bathrooms, hallways, closets, and garages.
