

The Wire Mesh angle bracket secures smaller tray runs to larger tray runs at right angles. This kit includes two EX BN 1/4" bolts/nuts and two CE 25 washers, allowing secure right-angle connections between smaller and larger trays for stable, reliable support.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Right-Angle Tray Connections: Secures smaller wire mesh cable tray runs to larger tray pathways at 90-degree intersections.

Slotted Adjustment: Two 0.30-by-1-inch mounting slots provide flexibility for positioning and aligning tray sections during installation.

Multiple Finish Options: Available in pregalvanized, black painted, custom-painted and 316L stainless steel configurations. Sold in packages of 10 kits.

Complete Connection Hardware: Each kit includes two EZBN 1/4-inch fasteners and two CE25 splice washers to secure the tray sections.

Compact Bracket Design: Measures approximately 2.25 inches high with 1.5-by-1.5-inch mounting surfaces for space-efficient pathway connections.
