

The Blind end cover provides an aesthetic way to block off the end of the tray when the tray does not end at a wall or equipment. This kit includes two EX BN 1/4" bolts/nuts and two CE 25 washers, allowing secure right-angle connections between smaller and larger trays for stable, reliable support.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Finished Tray Termination: Creates a clean visual stop where cables do not exit the end of the wire mesh cable tray, providing a more complete pathway appearance.

Matched Tray Depths: Available for 2-, 4- and 6-inch-deep wire mesh cable tray to maintain full coverage across the open end of the pathway.

Durable Carbon Steel Construction: Available in pregalvanized and black painted finishes for commercial and industrial cable management applications.

Built-In Bend-Over Tab: Secures directly to the tray without separate attachment hardware, helping simplify installation and reduce components.

Widths Up to 24 Inches: Offered in sizes matched to common tray widths from 4 to 24 inches, depending on the selected tray depth.
