

This wall mount attaches trays to surfaces, delivering secure support with quick, tool-free installation. Wall supports provide secure, space-efficient mounting to walls or structures, ensuring strong, stable cable pathways while simplifying installation with compatible hardware and adaptable configurations.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Supports Trays Up to 4 Inches Wide: Attaches compact wire mesh cable tray runs directly to walls, cabinets or machinery for localized cable routing.

Adjustable Wall Mounting: Slotted mounting holes provide flexibility for positioning and help accommodate minor alignment variations during installation.

Multiple Material Options: Available in pregalvanized carbon steel and passivated 316 stainless steel for commercial and industrial installation environments.

Hardware-Free Tray Attachment: Integrated fold-over tabs secure the tray to the support without separate nuts, bolts or clamps.

Compact Support Profile: Measures approximately 3.35 inches wide, 2.95 inches high and 0.79 inch deep for space-efficient mounting.

Specifications

General Info

Product Line	Cablofil	Application Sector	Data Center
Type	Supports		

Additional Information

Product Environmental Profile	Yes
