

This snap-in wall hanger secures 2" tray to supports, enabling fast, hardware-free installation. Wall supports provide secure, space-efficient mounting to walls or structures, ensuring strong, stable cable pathways while simplifying installation with compatible hardware and adaptable configurations.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Snap-In Tray Attachment: Secures 2-inch-wide wire mesh cable tray to the support without separate tray clamps, helping simplify wall-mounted installations.

Compact Support Profile: Measures approximately 1.75 inches deep by 1.75 inches high and 1.125 inches wide for space-efficient cable routing along walls and equipment.

Multiple Material and Finish Options: Available in pregalvanized or painted carbon steel and passivated 316 stainless steel to support different installation environments.

Slotted Wall-Mounting Hole: A 7-by-17 mm mounting slot provides positioning flexibility to help installers align the support before securing it to the wall.

UL-Classified Options: Pregalvanized and painted carbon steel configurations are UL Classified for commercial and industrial cable management applications.
