

Cablofil
Wire Mesh Bolt Cutter
Part No. COUPFIL

These bolt cutters cleanly cut wire mesh tray, enabling fast installation with precise, burr-free results.

This kit includes two EX BN 1/4" bolts/nuts and two CE 25 washers, allowing secure right-angle connections between smaller and larger trays for stable, reliable support.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Offset Side-Action Jaws: Cut wire close to the intersecting cross wire, helping minimize sharp edges and create smoother cable-pulling surfaces.

1-3/8-Inch Steel Jaw: Durable steel cutting jaws provide controlled, dependable performance for repeated tray modifications on the jobsite.

No Power or Batteries Required: Manual operation keeps the cutter ready for use throughout the jobsite without charging equipment, cords or battery changes.

24.8-Inch Overall Length: Long steel handles provide the leverage needed to cut and field-fabricate wire mesh cable tray manually.

Flexible Field Fabrication: Helps installers create bends, tees, reductions and other custom pathway configurations from straight wire mesh tray sections.

Specifications

General Info

Product Line	Cablofil	Application Sector	Data Center
Type	Cutting		

Additional Information

Product Environmental Profile	Yes
