

The Wire Mesh universal wall bracket supports cable trays with strong mounting and corrosion-resistant performance. Wall supports provide secure, space-efficient mounting to walls or structures, ensuring strong, stable cable pathways while simplifying installation with compatible hardware and adaptable configurations.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Hardware-Free FAS Attachment: Patented locking tabs secure wire mesh cable tray to the bracket without separate nuts, bolts or tray clamps, helping reduce installation time.

Higher-Capacity Support: The U-shaped bracket supports wider trays and heavier cable loads than the FAS L Bracket.

Underfloor Mounting Compatibility: Snaps directly into EDF Rail for underfloor applications, providing additional flexibility across cable tray support systems.

Wall and Channel-Framing Installation: Mounts wire mesh cable tray to walls or channel framing to support a variety of horizontal pathway configurations.

Multiple Bracket Sizes: Available in nominal 6-, 8-, 10- and 14-inch sizes to accommodate different tray widths and pathway requirements.

Specifications

General Info

Product Line	Cablofil	Application Sector	Data Center
Type	Supports		

Additional Information

Product Environmental Profile	Yes
