

This conduit clamp kit secures conduit to cable tray, enabling fast installation and integrated cable routing. This kit includes two EX BN 1/4" bolts/nuts and two CE 25 washers, allowing secure right-angle connections between smaller and larger trays for stable, reliable support.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Ten EMT Size Options: Available for conduit sizes from 1/2 inch through 4 inches, including 3/4-, 1-, 1-1/4-, 1-1/2-, 2-, 2-1/2-, 3- and 3-1/2-inch configurations.

Included EZ Mounting Hardware: Each kit includes the hardware required to secure the conduit-clamp plate to the wire mesh tray, reducing the number of separately sourced components.

Pregalvanized and Painted Options: Available in pregalvanized and black painted finishes, with UL-Classified pregalvanized configurations offered in select sizes.

Direct Tray-Mounted Support: Mounts conduit to wire mesh cable tray, helping integrate conduit and cable routing within the same support system.

Durable Carbon Steel Construction: Provides dependable conduit support for commercial and industrial cable management applications.
