

These cable guide rollers support smooth cable pulls, reducing friction and protecting cables during installation.

This kit includes two EX BN 1/4" bolts/nuts and two CE 25 washers, allowing secure right-angle connections between smaller and larger trays for stable, reliable support.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

4-Inch Pathway Compatibility: Designed for use with 4-inch-high wire mesh cable tray and compatible cable management pathways.

No-Cut Sidewall Mounting: Attaches directly to the pathway sidewall without cutting the wire mesh tray, helping preserve tray strength and simplify installation.

Pathway-Neutral Design: Compatible with multiple Legrand cable pathway systems, providing a versatile solution for commercial and data center cable routing.

Multidirectional Cable Support: The goal-post design guides cables entering, exiting or changing direction from multiple sides of the pathway.

Cable-Protecting Profile: Smooth, rounded surfaces help reduce pressure points and protect sensitive copper, fiber optic and communications cabling.
