

This universal bracket mounts trays to walls or strut, providing strong support and fast, tool-efficient installation. Wall supports provide secure, space-efficient mounting to walls or structures, ensuring strong, stable cable pathways while simplifying installation with compatible hardware and adaptable configurations.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Patented FAS Locking Tabs: Secure wire mesh cable tray directly to the bracket without separate nuts, bolts or tray clamps, helping reduce installation time and hardware.

Wall and Underfloor Installation: Supports wall-mounted cable pathways or combines with EDF Rail for installations beneath raised floors.

Durable Carbon Steel Construction: Provides dependable support for commercial and industrial cable pathways and is available in multiple sizes and finishes.

Higher-Capacity Tray Support: The U-shaped design supports wider wire mesh tray and heavier cable loads than the FAS L-Shaped Bracket.

Snap-In EDF Rail Connection: Attaches directly to EDF Rail to simplify positioning and assembly in underfloor cable management systems.

Specifications

General Info

Product Line	Cablofil	Application Sector	Data Center
Type	Supports		

Additional Information

Product Environmental Profile	Yes
