

Cablofil
Wire Mesh Fastrut Connector
Part No. FS 41

The FastStrut connector secures tray to strut quickly without tools or hardware for fast, stable installation. This kit includes two EX BN 1/4" bolts/nuts and two CE 25 washers, allowing secure right-angle connections between smaller and larger trays for stable, reliable support.

Wire Mesh Cable Tray delivers reliable, high-performance cable management with an open design that enhances airflow, reduces heat buildup, and maximizes cable capacity. Its modular system enables fast installation, easy routing, and seamless future upgrades. The cable tray system offers a fast, flexible, and adaptable solution for cable management with easy installation and maintenance.

Features & Benefits

Bolt-Free, Tool-Free Attachment: Secures wire mesh cable tray to standard strut without bolts, nuts or installation tools, helping reduce hardware and labor.

Secure Strut Connection: Clips onto the tray's outer wires and both sides of the strut channel to hold the pathway firmly in position.

Tray-Width Installation Guidance: Use two connectors for trays from 4 to 12 inches wide and three connectors for trays wider than 12 inches.

Compact 2.91-Inch Design: Measures approximately 2.91 inches long by 0.63 inch high for a streamlined connection between the tray and strut.

Multiple Finish Options: Available in several carbon steel finishes and 316L stainless steel to support different commercial and industrial environments. Sold in packages of 50.
